

Attachment 1: Contractor Employee, Agent or Representative Non-Disclosure Statement
CONTRACTOR EMPLOYEE, AGENT OR REPRESENTATIVE NONDISCLOSURE STATEMENT
Client Order ID09150006:

It is understood that as part of my duties under _____, I may come in contact with Government procurement sensitive information or proprietary business information from other contractors (e.g., cost data). I, as a Government contractor, certify that I will not disclose, publish, divulge, release, or make known, in any manner or to any extent, to any individual other than an appropriate or authorized Government employee, the content of any procurement sensitive information provided during the course of my employment. I understand that for the purpose of this agreement, procurement sensitive information is to include procurement data, contract information, plans, strategies and any other information that may be deemed sensitive. I further certify that I will use proprietary business information only for official purposes in the performance of Task No. TBD, and will disclose such information only to those individuals who have a specific need to know in performance of their official Government duties. I hereby agree not to disclose to others any contractual information, including, but not limited to, proprietary information, trade secrets, financial data, technical quotes which will be presented to me by the Contracting Officer or other Government Official. I agree that the described information is "inside information" and shall not be used for private gain by myself or another person, particularly one with whom I have family, business, or financial ties. For the purposes of this agreement, "inside information" means information obtained under Government authority which has not become part of the body of public information. I specifically will not disclose any such information to employees of my company or any other contractor employees who have not signed this agreement. I will take all reasonable precautions to prevent the unauthorized disclosure and use of such information.

Additionally, In performance of this task order, I _____ agree that any information made available in any format will be used only for the purpose of carrying out work related to providing Information Technology Support Services to the Defense Manpower Data Center. The information whether written or verbally communicated directly or indirectly, shall be treated as proprietary and therefore considered confidential, and shall not be divulged or made known to an unauthorized person with DMDC, FAS or outside GSA. I understand that unauthorized disclosure, unauthorized retention, or negligent handling of such information could cause damage or cause irreparable harm to the United States Government. As a condition of being granted access to sensitive business information, I agree to comply with all conditions and obligations imposed upon me by this statement, and will ensure the proper custody, use, and preservation of all information.

I agree that:

- Any information obtained through its effort on this task order will not be disclosed or used for any purpose other than that which it was furnished without written authorization from the Contracting Officer.
- I shall immediately notify the Contracting Officer as soon as I become aware of any unauthorized disclosure or use of information obtained through their work on this task order.

Personal Identification Information

The information and data, if disclosed to unauthorized sources, could violate the Privacy Act, OMB M06-16 (PII) and/or result in financial loss or adverse legal actions.

Attachment 2: Quality Assurance Surveillance Plan

Defense Manpower Data Center (DMDC)

Information Technology Support Services

Client Order ID0915006

Performance Work Statement (PWS)

QUALITY ASSURANCE SURVEILLANCE PLAN (QASP)

1. Purpose

This Quality Assurance Surveillance Plan (QASP) is a Government developed and applied document that sets forth procedures and guidelines that the Defense Manpower Data Center (DMDC) Task Managers, Contracting Officer Representative (COR) and Contracting Officer (CO) will use in evaluating the performance of the contractor. A copy of this plan will be furnished to the contractor so that the contractor will be aware of the methods that the Government will employ in evaluating performance on this contract and address any concerns that the contractor may have prior to initiating work. The surveillance/evaluation methods identified in this QASP, tied to the performance requirements of the Performance Work Statement (PWS) for the task order, will assure the Government of satisfactory contractor performance.

The QASP is a tool for use in Government administration of the task order and remains subject to revisions at any time by the Government throughout the contract performance period. Any changes made to the plan will be in conjunction with the CO and will be made readily available to the contractor. The contractor, not the Government, is responsible for management and quality control actions to meet the terms of the contract. The role of the Government is quality assurance to ensure contract standards are achieved.

2. Authority

Authority for issuance of this QASP is provided under PWS Section 7.2, which provides for inspections and acceptance of the services and documentation called for in service contracts, to be executed by the Contracting Officer or a duly authorized representative.

3. Scope

The contractor, not the Government, is responsible for management and quality control actions to meet the terms of the contract. The role of the Government is quality assurance to ensure contract standards are achieved. The QASP is put in place to provide Government surveillance oversight of the contractor's efforts to ensure that they are timely, effective, and are delivering the results specified.

4. Government Roles

The following definitions for Government resources are applicable to this plan:

Contracting Officer - A person duly appointed with the authority to enter into contracts and make related determination and findings on behalf of the Government. The CO for this contract is Karina R. Levitas. Contracting Officers are designated via a written warrant, which sets forth limitations of authority.

Project Managers – Person (s) duly appointed to aid the Contracting Officer in administering and coordinating contract award, administration, and invoicing. The PM is the industry point of contact in the pre-award stage as well as subsequent award of the contract, to be overseen by the CO.

Contracting Officer Representative – The COR is responsible for technical administration of the contract and assures proper Government surveillance of the contractor's performance.

Government Task Managers – The CO designates an individual Government Task Manager to assist in administering a specific task under the contract.

5. Responsibilities

The following Government resources shall have responsibility for the implementation of this QASP:

Contracting Officer – The Contracting Officer ensures performance of all necessary actions for effective contracting, ensures compliance with the terms of the contract and safeguards the interests of the United States in the contractual relationship. It is the Contracting Officer that assures the Contractor receives impartial, fair and equitable treatment under the contract. The Contracting Officer is ultimately responsible for the final determination of the adequacy of the Contractor's performance.

Contracting Officer Representative – The COR is responsible for technical administration of the contract and assures proper Government surveillance of the contractor's performance. The COR is not empowered to make any contractual commitments or to authorize any changes on the Government's behalf. Any changes that the contractor deems may affect contract price, terms, or conditions shall be referred to the Contracting Officer for action.

Quality Assurance personnel (QAP) should be familiar with the contract terms and conditions; may request additional training, if needed, from the CO; and will monitor the contractor's performance in accordance with this QASP, evaluate the contractor's performance and report the results in a monthly report, citing contractor deficiencies and providing specific details of each deficiency cited. It is extremely important that the Quality Assurance personnel (QAP) establish and maintain a team-oriented line of communication with the contractor's key personnel and the DMDC program office Task Managers in order to perform his/her monitoring duties. The parties must work together as a team to ensure that required work is accomplished in an efficient and proper manner. Performance meetings will be held on a regular basis in order to resolve serious problems.

Government Task Managers – The Government Task Lead is responsible for assisting in administering specific tasks under the contract. A Government Task Manager cannot, in any manner, alter the scope of the contract, make commitments or authorize any changes on the Government's behalf.

6. Surveillance Procedures

Contractor Performance Assessment Report System (CPARS) – The market place for administrative, engineering, and technical services is very competitive. As such, the successful offeror has a vested interest in the Government generated CPARS under this contract. An evaluation using the CPARS format will be performed at the end of each year of performance. This evaluation will be one determinant in exercising an option. The Government for this procurement will address the quality of product or service, schedule, cost control, business relations, management, and other important areas. As this information may affect future source selections throughout GSA, and the continuation of the order, the annual Government assessment will be used appropriately as an additional performance oversight and communication tool with the QASP.

QASP - The below listed methods of surveillance shall be used by the COR and Government Task Managers in the technical administration of this QASP. Surveillance will include scheduling,

observing, documenting, and resolving performance issues discovered through surveillance. The volume of tasks performed by the contractor makes technical inspection of every task and step impractical, and accordingly, the QASP is based on performance measures that encompass not just task-specific measures but strategic performance outcomes as well. Monthly reviews, to be scheduled upon award, will be held between Government and contractor to discuss progress and deficiencies or risks that require resolution and/or consideration will be held, with formal surveillance scheduled on a quarterly basis. As a decision for the exercise of the option period needs to be made 60 days prior to the end of the initial period of performance.

7. Documentation

In addition to providing quarterly reports to the Contracting Officer, the COR will maintain a complete Quality Assurance file. The file will contain copies of all reports, evaluations, recommendations, and any actions related to the Government's performance of the quality assurance function. All such records will be maintained for the life of the order. The COR shall forward these records to the Contracting Officer at termination or completion of the order.

8. PERFORMANCE REQUIREMENTS SUMMARY (PRS)

Description	Performance Standard and Acceptable Quality Level (AQL)	Surveillance Method/Measure	Incentives/Disincentives
Please see Appendix A : Acceptable Quality Levels			

*The Government will not exercise the next option period term unless all regulatory requirements are met and the contractor meets the acceptable performance definition.

When referred to the above, the evaluation ratings are as follows:

Exceptional – Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the task and sub-task being assessed was accomplished with few or minor problems for which corrective actions taken by the contractor were highly effective.

Satisfactory - Performance meets contractual requirements. The contractual performance of the task and sub-task contain some minor problems for which corrective actions taken by the contractor appear or were satisfactory.

Marginal - Performance does not meet contractual requirements. The contractual performance of the task and sub-task being assessed reflect a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.

Unsatisfactory – Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the task or sub-task contains a serious problem(s) for which the contractor's actions appear or were ineffective.

Past Performance Survey

Past Performance Survey Questionnaire

I. CONTRACT IDENTIFICATION

Contractor Name:

Contract Number:

II. EVALUATOR INFORMATION

Name:

Phone Number:

Organization:

Relation to Program:
(Contracting Officer, COR, etc.)

III. TERMINATION HISTORY

1. Has this contract been partially or completely terminated for default or convenience?

☐ Yes ☐ Default ☐ Convenience ☐ No

If yes, explain (e.g., inability to meet cost, performance, or delivery schedules).

2. Are there any pending terminations? ☐ Yes ☐ No

If yes, explain and indicate the status.

IV. EVALUATION

(Please CIRCLE or UNDERLINE the rating which best describes the Contractor's performance for each of the following questions and provide a narrative explanation in the "Comments" area that supports your choice. If the question does not apply, circle or underline "N/A" for "Not Applicable.") Below is a description of each rating.

E – EXCEPTIONAL – Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.

V – VERY GOOD – Performance meets contractual requirements and exceeds some to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.

S – SATISFACTORY – Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.

M – MARGINAL – Performance does not meet all contractual requirements. The contractual performance of the element or sub-element being assessed reflects serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.

U – UNSATISFACTORY – Performance does not meet contractual performance and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains serious problems for which the contractor's corrective actions appear or were ineffective.

N/A - NOT APPLICABLE

Your narrative statements are important. Please provide a narrative for each area no matter how brief. Please attach additional pages if there is insufficient space in the comment space.

Past Performance Survey

1. Quality of Product/Service (e.g., equipment, qualified personnel, quality control): does the contractor meet established guidelines and policies for safety and security? Does the contractor meet industry standards and local building codes for equipment installation

E V S M U

Comments:

2. Schedule: does the contractor provide adequate staffing to meet workload requirements and is work performed in timely manner and in accordance with the requirement? Was the job completed on time?

E V S M U

Comments:

3. Cost Control: was the job completed within the dollar amount for the contract? Was the contractor amendable to making changes in a cost-effective manner and reasonable in negotiating the value of the work?

E V S M U

Comments:

4. Business Relations: are contractor personnel promoting a strong working relationship with the Government? Does the contractor adequately address and make efforts to resolve issues/problems concerning on-site employees? Does the contractor show initiative? Were contractor personnel courteous and responsive? Did the contractor interface effectively with your staff?

E V S M U

Comments:

5. Management of Key Personnel: is the contractor providing the site manager/lead employees with the necessary resources and support to adequately perform their work? Does the contractor adequately address and make efforts to resolve issue/problems concerning the site manager/lead employees? Is the contractor able to solve contract performance problems without extensive guidance from Government counterparts?

E V S M U

Comments:

6. Please comment on any other contractor information you consider relevant to this evaluation.
